

# ANNUAL CONFERENCE 2017 OF ISACA MUMBAI CHAPTER

## Conference Theme

*Demystifying Security in a Digitized Economy*

## Introduction

India's Digital journey has been accelerated by some key players along with the Government's push, to make the transition of the Indian economy to a digital and cashless one very smooth & flawless. This is no mean achievement in a very short period of time & the fruits are there for every proud Indian to enjoy in terms of a paperless & cashless digital lifestyle.

While these digital technologies simplify and ease the way we do business efficiently, they bring with them new risks & challenges like cyber security. These challenges need to be addressed at the enterprise level as well as policy levels. This calls for a different approach and preparedness on the part of both businesses and the authorities and coordination between the two.

Over two days, speakers at this year's conference, ranging from highly acclaimed CSOs of the country, to experts and policymakers from the government, will enthral the audience with their expertise in securing this digital transformation.

This premier event brings together Information Security professionals from premier organizations in India and abroad from the banking, manufacturing, insurance sectors, ITES, Government departments and practicing professionals to share their experiences, perspectives, insights and the latest trends in Information Security.
