In business today, risk plays a critical role.

Almost every business decision requires IT and business professionals to balance risk and reward. Effectively managing business risk is essential to an enterprise's success.

GAIN WORLDWIDE RECOGNITION WITH CRISC

The Certified in Risk and Information Systems Control certification (CRISC), pronounced “see-risk,” is intended to recognize a wide range of professionals for their knowledge of enterprise risk and their ability to design, implement and maintain information systems (IS) controls to mitigate such risk. (See www.isaca.org/recognitions) The CRISC designation certifies professionals who have knowledge and experience in identifying and evaluating risk and in designing, implementing, monitoring and maintaining risk-based, efficient and effective IS controls.

Those who earn the CRISC designation help enterprises benefit from the rising business demands for IT professionals who understand business risk and have the technical knowledge to implement appropriate IS controls.

Recognition for Risk and Control Experience

The CRISC certification is unique because it is focused on both risk and controls. Employers can be assured that CRISC-certified professionals have the proven experience and knowledge to help enterprises accomplish business objectives such as:

- Effective and efficient operations and IS control
- Risk management
- Compliance with regulatory requirements

CRISC—The Right Certification for You

The CRISC designation is designed for professionals responsible for managing enterprise risk through effective IS controls. Such individuals include:

- IT professionals
- Risk professionals
- Control professionals
- Business analysts
- Project managers
- Compliance professionals

ABOUT THE CRISC EXAM

The CRISC exam is offered twice each year and consists of 200 multiple-choice questions that cover five domains defined by the CRISC job practice. The domains and percentages below indicate content and the emphasis of questions that will appear on the exam. The job practice is based on ISACA’s global research and frameworks including Risk IT and COBIT® 4.1, independent market research, and input from thousands of subject matter experts (SMEs) from around the world. The statements within each domain are intended to define the roles and responsibilities of the CRISC professional.

Domains

The job practice consists of task and knowledge statements, organized by domains. These statements and domains were the result of extensive research and feedback from risk and control SMEs around the world.

The domains and their definitions are as follows:

- **Domain 1—Risk Identification, Assessment and Evaluation (31 percent):** Identify, assess and evaluate risk factors to enable the execution of the enterprise risk management strategy.
- **Domain 2—Risk Response (17 percent):** Develop and implement risk responses to ensure that risk factors and events are addressed in a cost-effective manner and in line with business objectives.
- **Domain 3—Risk Monitoring (17 percent):** Monitor risk and communicate information to the relevant stakeholders to ensure the continued effectiveness of the enterprise’s risk management strategy.
- **Domain 4—Information Systems Control Design and Implementation (17 percent):** Design and implement information systems controls in alignment with the organization’s risk appetite and tolerance levels to support business objectives.
- **Domain 5—Information Systems Control Monitoring and Maintenance (18 percent):** Monitor and maintain information systems controls to ensure that they function effectively and efficiently.

CRISC exam questions are developed to ensure that they accurately test an individual’s proficiency in risk identification, assessment and evaluation; risk response; risk monitoring; IS control design and implementation; and IS control monitoring and maintenance. For a description of task and knowledge statements for each domain, please refer to www.isaca.org/CRISCjobpractice.

REQUIREMENTS FOR EARNING CRISC CERTIFICATION

To become a CRISC, an applicant must:

1. Achieve a passing score on the CRISC exam. A passing score on the CRISC exam, without completing the required work experience as outlined below, is valid for five years only. If the applicant does not meet the CRISC certification requirements within the five-year period, the passing score is voided.
2. Submit an application with verified evidence of three years of work experience as described below. Work experience must be gained within the 10-year period preceding the application date for certification or within five years from the date of initially passing the exam.

A minimum of at least three years of cumulative work experience performing the tasks of a CRISC professional across at least three CRISC domains. There will be no substitutions or experience waivers.

It is important to note that individuals may choose to take the CRISC exam prior to meeting the experience requirements. This practice is acceptable and encouraged, although the CRISC designation will not be awarded until all requirements are met.

3. Agree to abide by the ISACA Code of Professional Ethics, which can be viewed at www.isaca.org/ethics.
4. Agree to abide by the CRISC continuing professional education (CPE) policy, which can be viewed at www.isaca.org/CRISCCpepolicy.

A processing fee of US \$50 must accompany your CRISC Application for Certification. Please note that decisions on applications are not final as there is an appeal process for certification application denials. Inquiries regarding denials of certification can be sent to certification@isaca.org.

The 2012 edition has been updated by a global team of SMEs to assist candidates in understanding essential concepts of the CRISC job practice areas.

The manual features a unique learning format for focused study, separated into two distinct parts. Part I provides an overview of the concepts related to the IT-related risk management process and the design, implementation, monitoring and maintenance of information systems (IS) controls. Part II describes selected businesses and IT processes and how they relate to enterprise risk and information systems controls. Sample practice questions and explanations of answers assist candidates in understanding the topic areas. Also included are references for further study.

The 2012 edition has been updated to help CRISC candidates understand essential concepts and is organized to facilitate study in the following domains:

- Risk Identification, Assessment and Evaluation
- Risk Response
- Risk Monitoring
- Information Systems Control Design and Implementation
- Information Systems Control Monitoring and Maintenance

- The **CRISC™ Review Questions, Answers & Explanations Manual 2011** is designed to provide CRISC candidates with an understanding of the type and structure of questions and content that will appear on the CRISC exam. The **CRISC™ Review Questions, Answers & Explanations Manual 2011** consists of 100 multiple-choice study questions. To help candidates maximize study efforts, questions are sorted by domain, allowing CRISC candidates to focus on particular topics, and are scrambled as a sample 100-question exam, enabling candidates to effectively determine their strengths and weaknesses and to simulate an actual exam.
- **CRISC™ Review Questions, Answers & Explanations Manual 2012 Supplement** features 100 additional sample questions, answers and explanations to help candidates effectively prepare for the 2012 CRISC exam. The questions are intended to provide CRISC candidates with an understanding of the type and structure of questions that have typically appeared on past exams, and were prepared specifically for use in studying for the CRISC exam. This publication is ideal to use in conjunction with the **CRISC™ Review Manual 2012** and the **CRISC™ Review Questions, Answers & Explanations Manual 2011**.
- **Candidate's Guide to the CRISC Exam and Certification** is supplied to individuals upon receipt of CRISC registration form and payment. This guide provides a detailed outline of the job practice areas covered on the examination and information on the exam's administration.

CRISC exam candidates should be familiar with the terminology and concepts in ISACA's intellectual property and other credible sources. CRISC EXAM ADMINISTRATION

Admission Ticket

Approximately two to three weeks prior to the CRISC exam date, candidates will receive a physical admission ticket and an e-ticket from ISACA. The ticket will indicate the date, registration time and location of the exam, as well as a schedule of events for that day and a list of materials that candidates must bring with them to take the CRISC exam. Candidates can use either a printout of the e-ticket or the hard copy admission ticket for entry into the exam. Candidates are not to write on the admission ticket.

Please note: To receive an admission ticket, all fees must be paid. Admission tickets are sent via hard copy and e-mail to the current postal mailing and e-mail address on file. Only candidates with an admission ticket and acceptable government-issued identification (ID) will be admitted to take the exam, and the name on the admission ticket must match the name on the government-issued ID. The hard copy admission ticket or print out of the e-ticket is valid for admission into the exam. If a candidate's mailing and/or e-mail address change, he/she should update his/her profile on the ISACA web site (www.isaca.org) or contact exam@isaca.org.

Candidates must locate and note the specific registration and exam time on their admission ticket. **No candidate will be admitted to the test center once the chief examiner begins reading the oral instructions, approximately 30 minutes before the exam begins.** Any candidate who arrives after the oral instructions have begun will not be allowed to sit for the exam and will forfeit his/her registration fee. A candidate can use his/her admission ticket only at the designated test center on his/her admission ticket.

Candidates will be admitted to the test center only if they have a valid admission ticket and an acceptable form of ID. An acceptable form of ID must be a current and original government-issued ID that contains the candidate's name, as it appears on the admission ticket, and the candidate's photograph. The information on the ID cannot be handwritten. All of these characteristics must be demonstrated by the single piece of ID provided. Examples include, but are not limited to, a passport, driver's license, military ID, state ID, green card and national ID. Any candidate who does not provide an acceptable form of ID will not be allowed to sit for the exam and will forfeit the registration fee. IDs will be checked during the exam.

Any candidate who has not received the admission ticket by 1 June 2012 should contact the ISACA certification department immediately at exam@isaca.org or via phone at +1.847.660.5660.

No food or drinks are allowed at any exam site, unless special arrangements have been made in advance. Please refer to "Special Arrangements" on page 6.

Misconduct

Candidates who are discovered engaging in any kind of misconduct, such as giving or receiving help; using notes, papers or other aids; attempting to take the exam for someone else; using any type of communication device including cell phones during the exam administration; or removing the exam booklet, answer sheet or notes from the testing room will be disqualified and may face legal action. Candidates who leave the testing area without authorization or accompaniment by a test proctor will not be allowed to return to the testing room and will be subject to disqualification. The testing agency will report such irregularities to ISACA's CRISC Certification Committee.

Security

Candidates are not allowed to bring any type of communication devices into the test center. **If candidates are observed with any communication device (i.e., cell phone, PDA, smart phone) during the exam administration, their exams will be voided and they will be asked to immediately leave the test site.** Neither ISACA or its testing vendor takes responsibility for the personal belongings of candidates. ISACA will not assume responsibility for stolen, lost or damaged personal property. To review the Personal Belongings Policy, please visit www.isaca.org/CRISCbelongings.

CRISC EXAM RESULTS

Receiving Your Score

Please notify the certification department immediately if your registration contact information changes. **Approximately eight weeks after the test date, the official exam results will be mailed to candidates.** Additionally, with the candidate's consent during the registration process, an e-mail message containing the candidate's pass/fail status and score will be sent to the candidate. This e-mail notification will only be sent to the address listed in the candidate's profile at the time of the initial release of the results. To ensure the confidentiality of scores, exam results will not be reported by telephone or fax. To prevent e-mail notification from being sent to spam folders, candidates should add exam@isaca.org to their address book, whitelist or safe-senders list.

Reporting of Your Test Results

Candidate scores are reported as a scaled score. A scaled score is a conversion of a candidate's raw score on an exam to a common scale. ISACA uses and reports scores on a common scale from 200 to 800. For example, the scaled score of 800 represents a perfect score with all questions answered correctly; a scaled score of 200 is the lowest score possible and signifies that only a small number of questions were answered correctly. A candidate must receive a score of 450 or higher to pass the exam. A score of 450 represents a minimum consistent standard of knowledge as established by ISACA's CRISC Certification Committee. A candidate receiving a passing score may then apply for certification if all other requirements are met.

Passing the exam does not grant the CRISC designation. To become a CRISC, each candidate must complete all requirements as listed on page 4.

Retaking the CRISC Exam

A candidate receiving a score of less than 450 has not passed and can retake the exam by registering for and paying the appropriate exam fee for any future exam administration. To assist with future study, the results letter each candidate receives will include a score analysis by content area. There are no limits to the number of times a candidate can take the exam.

MAINTAINING CRISC CERTIFICATION

A major strength of any professional designation is a program of CPE that the individual must follow to retain certification. To maintain CRISC certification, individuals must comply with a CPE policy (www.isaca.org/CRISCCPEpolicy) and abide by ISACA's Code of Professional Ethics (www.isaca.org/ethics). Together, these programs help ensure that CRISCs remain current with technical and industry advances and demonstrate high professional principles.

The CPE policy requires the individual to earn and submit an annual minimum of 20 CPE hours and to pay a maintenance fee each year. In addition, a minimum of 120 CPE hours must be earned and submitted during a fixed three-year certification period. To more easily meet the three-year cycle requirement of 120 hours, it is suggested that individuals earn an average of 40 CPE hours annually. **Failure to comply with this policy will result in revocation of an individual's certification.** All certificates are owned by ISACA. If an individual is approved for certification and subsequently revoked, the individual must destroy the certificate.
